

India declares itself free from Highly Pathogenic Avian Influenza (H5N1 and H5N8)

Posted On: 06 JUL 2017 3:59PM by PIB Bhubaneswar

India had reported outbreaks of Highly Pathogenic Avian influenza at various epicenters in Delhi, Gwalior (MP), Rajpura (Punjab), Hissar (Haryana), Bellary (Karnataka), Allappuzha and Kottayam (Kerala), Ahmedabad (Gujarat), Daman (Daman) and Khordha and Angul (Odisha) during October, 2016 to February, 2017.

All the outbreaks of Avian Influenza (HPAI) mentioned above were notified to OIE and the control and containment operations were carried out as per the Action Plan on Preparedness, Control and Containment of Avian Influenza.

Surveillance was carried out throughout the country and around the areas of the outbreaks since completion of the operation (including culling, disinfection and clean-up) and surveillance in the states showed no evidence of presence of Avian Influenza Virus.

In view of the above, India has declared itself free from Avian Influenza (H5N8 and H5N1) from 6th June, 2017 and notified the same to OIE.
