

Cabinet approves doubling of Barabanki-Akbarpur Doubling Project for promoting Speedy, Reliable & Safe Service

Posted On: 12 SEP 2017 7:32PM by PIB Bhubaneswar

The Cabinet Committee on Economic Affairs, chaired by the Prime Minister Shri Narendra Modi, has approved the 161 km long Barabanki-Akbarpur doubling project at a completion cost of Rs. 1,310.23 crore and is likely to be completed by 2021-22. The project will cover the districts of Barabanki and Faizabad in Uttar Pradesh and will benefit the entire route from Lucknow to Varanasi via Faizabad.

At present delay of trains in Barabanki to Varanasi is high and Express trains are taking up to 7-15 hours for covering a distance of just 323 kms. Present capacity utilization from Barabanki to Faizabad is 146.5% and from Faizabad to Akbarpur it is 152.6%. The doubling project will ensure **higher speeds, reduce train delays, enhance safety by allowing more time for block maintenance** and provide **additional capacity** for future increase in traffic.

Doubling will not only decongest the entire route from Lucknow to Varanasi but also lead to **economic prosperity** and **overall development** of the region. Further, by easing the connectivity to **Varanasi** often referred to as the *Spiritual Capital of India* and the Holy city of **Ayodhya** will give a boost to **pilgrimage, tourism** and their **local economy**.

It will also improve movement of coal to Tanda Power Plant near Akbarpur thereby ensuring reliable coal supplies and lead to 24x7 Affordable Power for All.

In addition, this project will generate direct **employment** during construction for about 38.64 lakh mandays.
