# Appeal to people not to start circulating wrong messages on social media as no distinction is made in the GST Law on any provision based on religion.

Posted On: 03 JUL 2017 8:54PM by PIB Delhi

There are some messages going around in the social media stating that the temple trusts have to pay the GST while the churches and mosques are exempt. This is completely untrue because no distinction is made in the GST Law on any provision based on religion.

We request to people not to start circulating such wrong messages on social media.
