

Total Foodgrains Production Estimates at record 273.38 mt

Total Production of Rice Estimate at record 109.15 mt

Posted On: 09 MAY 2017 4:51PM by PIB Delhi

Production of Wheat Estimate at 97.44 mt is also a record

Production of Coarse Cereals Estimate at new record level of 44.39 mt

Total Production of Pulses is Estimate at record 22.40 mt

3rd Advance Estimates of Production of Major Crops for 2016-17 Release

The 3rd Advance Estimates of production of major crops for 2016-17 have been released today by the Department of Agriculture, Cooperation and Farmers Welfare. The assessment of production of different crops is based on the feedback received from States and validated with information available from other sources. As a result of very good rainfall during monsoon 2016 and various policy initiatives taken by the Government, the country has witnessed record foodgrain production in the current year. The estimated production of various crops as per the 3rd Advance Estimates for 2016-17 vis-à-vis the comparative estimates for the years 2003-04 onwards is enclosed.

As per 3rd Advance Estimates, the estimated production of major crops during 2016-17 is as under:

Ø **Foodgrains** - 273.38 million tonnes (record)

- Rice - 109.15 million tonnes (record)
- Wheat - 97.44 million tonnes (record)
- Coarse Cereals - 44.39 million tonnes (record)
 - Maize - 26.14 million tonnes (record)
- Pulses - 22.40 million tonnes (record)
- Gram - 9.08 million tonnes
- Tur - 4.60 million tonnes (record)
- Urad - 2.93 million tonnes (record)

Ø **Oilseeds** - 32.52 million tonnes

- Soyabean - 14.01 million tonnes
- Groundnut - 7.65 million tonnes
- Castorseed - 1.55 million tonnes

Ø **Cotton** - 32.58 million bales (of 170 kg each)

Ø **Sugarcane** - 306.03 million tonnes

As a result of very good rainfall during monsoon 2016 and various policy initiatives taken by the Government, the country has witnessed record foodgrain production in the current year. As per Third Advance Estimates for 2016-17, total **Foodgrain** production in the country is estimated at 273.38 million tonnes which is higher by 8.34 million tonnes (3.15%) than the previous record production of Foodgrain of 265.04 million tonnes achieved during

2013-14. The current year's production is also higher by 16.37 million tonnes (6.37%) than the previous five years' (2011-12 to 2015-16) average production of Foodgrains. The current year's production is significantly higher by 21.81 million tonnes (8.67%) than the last year's foodgrain production.

Total production of **Rice** is estimated at record 109.15 million tonnes which is also a new record. This year's Rice production is higher by 2.50 million tonnes (2.34%) than previous record production of 106.65 million tonnes achieved during 2013-14. It is also higher by 3.73 million tonnes (3.54%) than the five years' average Rice production of 105.42 million tonnes. Production of rice has increased significantly by 4.74 million tonnes (4.54%) than the production of 104.41 million tonnes during 2015-16.

Production of **Wheat**, estimated at 97.44 million tonnes is also a record. This year's wheat production is higher by 1.66% than the previous record production of 95.85 million tonnes achieved during 2013-14. Production of Wheat during 2016-17 is also higher by 4.83 million tonnes (5.21%) than the average wheat production. The current year's production is higher by 5.15 million tonnes (5.58%) as compared to Wheat production of 92.29 million tonnes achieved during 2015-16.

Production of **Coarse Cereals** estimated at a new record level of 44.39 million tonnes is higher than the average production by 3.04 million tonnes (7.36%). It is higher than the previous record production of 43.40 million tonnes achieved during 2010-11 by 0.99 million tonnes (2.28%). Current year's production is also higher by 5.87 million tonnes (15.23%) as compared to their production of 38.52 million tonnes achieved during 2015-16.

As a result of significant increase in the area coverage and productivity of all major **Pulses**, total production of pulses during 2016-17 is estimated at 22.40 million tonnes which is higher by 3.15 million tonnes (16.37%) than the previous record production of 19.25 million tonnes achieved during 2013-14. Production of Pulses during 2016-17 is also higher by 4.77 million tonnes (27.03%) than their Five years' average production. Current year's production is higher by 6.05 million tonnes (37.03%) than the previous year's production of 16.35 million tonnes.

With an increase of 7.27 million tonnes (28.80%) over the previous year, total **Oilseeds** production in the country is estimated at 32.52 million tonnes. The production of Oilseeds during 2016-17 is also higher by 3.27 million tonnes (11.17%) than the five year's average Oilseeds production.

Production of **Sugarcane** is estimated at 306.03 million tonnes which is lower by 42.42 million tonnes (-12.17%) than the last year's production of 348.45 million tonnes.

10. Despite lower area coverage during 2016-17, higher productivity of **Cotton** has resulted into higher production of 32.58 million bales (of 170 kg each), i.e. an increase of 8.57%, as compared to 30.01 million bales during 2015-16.

Production of **Jute & Mesta** estimated at 10.27 million bales (of 180 kg each) is marginally lower (-2.39%) than their production of 10.52 million bales during the last year.
