High Capacity Parcel Vans in Indian Railways

Posted On: 08 AUG 2017 3:49PM by PIB Delhi

To meet the demand of full vehicle load perishable traffic, Indian Railways has developed High Capacity Parcel Vans (VPs) with a capacity of 23 Tonnes which are attached to passenger carrying trains subject to availability of room in train and operational feasibility. To facilitate transportation of milk through Rail, specially designed High Capacity Milk Tankers having capacity of 44.66 KL are run as Special trains. At present 3 Milk tanker trains are being run of which 2 trains are run by Gujarat Corporative Milk Marketing Federation Ltd. (GCMMFL) from Palanpur to Bhim Sen and other by Mother Dairy from Daund to Baraut.

In addition to this, Indian Railways also run special parcel train consisting of High Capacity Parcel Vans for transportation of fruits in bulk like Mango, Banana, Orange etc. on demand, on a fixed path between specific origin-destination stations. Railways supply rakes for transportation of fruits on indent basis.

For transportation of horticulture produce in container, Container Corporation of India (CONCOR) has procured 98 Ventilated Isolated Containers specially designed for movement of fruits and vegetables.
